## EXPERIENCE:

### SENIOR FRONT-END DEVELOPER, 12/2021 - 10/2024

ACRONIS / Virtuozzo - Paris

- o **Contributed to the development of Virtuozzo Hybrid Infrastructure**, enhancing enterprise digital transformation through efficient hybrid cloud management and resource optimization.
- o **front-end development at Acronis**, a global company with 2,000+ employees and annual revenue exceeding \$200 million, optimizing hybrid infrastructure solutions for enterprise-level clients.
- o **Conducted unit tests and integration tests**, following the Arrange-Act-Assert (AAA) pattern to ensure clarity and effectiveness in testing.
- o **Standardized development process** by utilizing various design patterns (SOLID, YAGNI, etc.) to ensure maintainable and efficient code.
- o **Extended application support for TypeScript**, leveraging its type safety and enhanced tooling to reduce bugs and improve code maintainability.
- o **Performed automation testing with TestCafe for regression testing**, implementing the Page Object Model pattern to streamline test maintenance and improve readability.
- o **Shared experience in optimizing code with AI tools**, promoting best practices in clean code and design patterns among the team.
- o **Communicated with QA about test case design in TestRail**, ensuring alignment on testing strategies and coverage based on component-driven design principles.

### LEAD FRONT-END DEVELOPER, 09/2018 - 11/2021

VIADIRECT - Paris

- o **Contributed to Viadirect's SaaS product suite, improving performance** and user experience for a Paris-based company with €50 million annual turnover, serving global clients in the retail and property sectors.
- o **Mentored junior software engineers**, providing guidance on coding standards, best practices, and professional development.
- o **Collaborated closely with product managers, designers, and backend teams to swiftly respond to client requirements**, ensuring seamless communication and alignment across departments to deliver high-quality solutions.
- o **Created application v4** from planning and design through execution and release.

## SUMMARY

Senior Front-End Developer with 8 years of experience specializing in UI/UX development, with extensive expertise in Vue.js and React, and strong proficiency in TypeScript and JavaScript. Highly skilled in unit testing (Jest) and end-to-end testing (TestCafe), with a proven track record of maintaining high standards in code quality. Actively collaborate across teams, working closely with project managers, designers, and backend developers to ensure top-quality deliverables. Passionate about exploring new technologies and optimizing solutions for performance and efficiency.

## Skills

### Languages & Frameworks:

JavaScript/TypeScript,  
Vue.js/Vuex/Pinia,  
React/Redux/React Query,
